

OVERSTREET MEDIA

REMEMBER THIS DAY FOREVER

Modern. Candid. Priceless.

Hello Bride & Groom-to-be! Congratulations on your recent engagement. This investment guide will help explain the value that I can bring to your wedding day. If you have questions not answered here, I would be happy to meet you for coffee.

As a videographer, I specialize in weaving heartfelt, expertly documented cinematic stories with beautiful music. In 2019-2020, I expanded my services beyond the commercial world, where I've been focused for the last five years, to now include weddings and other private events.

My "early access" wedding package rates in this guide will increase significantly next season. By booking me now, you can get an amazing wedding video package below the industry rate.

WHY HAVE A WEDDING VIDEO?

*"YOU CAN REPLAY THE MOST
SPECIAL MOMENTS IN YOUR
LIFE IF YOU HAVE A
VIDEOGRAPHER."*

When you look back on your wedding day, there will be no greater joy than seeing the way you looked at each other as you said "I do". You'll be able to hear how you said your vows, you'll be able to witness people having a blast at your reception, and 40 years from now - you'll be able to relive the memories of your wedding like it was yesterday.

MY APPROACH

Cinematic story telling

I won't just "video your wedding." I'll use cinematic footage combined with a narrative / documentary style approach to create an engaging film that tells a unique, heartfelt story - a "forever film" that will ignite memories and infuse magic into any moment of any day, for the rest of your days.

MY PROCESS

COVERAGE

I'll work closely with you to create a coverage plan that you're happy with. I can also adapt my filming style to be more candid or intentional to suit your preference.

CAMERAS

I use professional cameras, audio, and lighting equipment, as well as a professional drone for those epic wide shots (I am a licensed and insured commercial drone pilot). Multiple cameras will be used during your ceremony to carefully capture each moment.

EDITING

I pride myself on storytelling and attention to detail throughout the post production editing process. I will carefully source beautiful, licensed music that suits you and the feel of the day.
